To whom it may concern.

This is an agreement made between John Hendricks and Harvey Heinz regarding publishing John Hendricks books on the Internet as PDF files.

The purpose of this project is to make available to a wide audience, books that are no longer available in print, but contain valuable information on magic hypercubes.

This move also helps to insure that this valuable information will not be permanently lost.

John Hendricks gives Harvey Heinz full permission to scan the pages of any or all books written by J. R. Hendricksthat deal with magic squares, cubes and other magic hypercubes. Then to assemble them into Portable Document Format (PDF) files. And finally post them on the Internet for free downloading as eBooks by other magic square fans.

This permission is granted subject to the following conditions:

- The assembled PDF file is a faithful copy of the original book as to number and contents of pages, copyright notice, ISBN, etc. (As the originals are copies legally owned by Harvey Heinz, there may appear an occasional page with handwritten notes on it).
- Harvey Heinz will then store these files on his web sites, or arrange for other storage locations on the Internet.
- No guarantee is made by Harvey Heinz as to completion date of individual books, or to length of time the files will be available on the Internet.
- These files (ebooks) will be available for free download. No money will accrue to either John Hendricks OR Harvey Heinz.
- The copyright will remain with John Hendricks.

Harvey Heinz has volunteered for this project because he is interested in preserving this valuable source of information. His participation is subject also to the preceding points

So agreed to by both parties:

Harvey Heinz signed: *Harvey Heinz* Date *Dec 12/2006*

John Hendricks signed: *John Hendricks* Date *12 Dec 2006*
